

CONFIDENTIAL

16 May 1950

MEMORANDUM FOR:

25X1A

SUBJECT:

Liaison with the Department of Defense

1. It has come to my attention that on more than one occasion in the past various elements of OPC have made oral requests to the JSPB or other elements of the Department of Defense asking for support action or service, and that because of the fact that these requests have not been adequately coordinated within OPC there has resulted a certain amount of confusion both within OPC and the Department of Defense and a consequent loss of time and effort.

2. In order to correct this situation, I desire that you draft an appropriate Administrative Memorandum which will require that all OPC requests for service on the part of the Department of Defense will be made in writing in the form of a memorandum addressed to the JSPB for ADPO's signature. Service should be defined in this Administrative Memorandum as any request for personnel, logistic, intelligence, or training support action on the part of the Department of Defense. It is not my intention to prevent informal discussion by authorized representatives of OPC with representatives of the JSPB concerning the many problems which will arise in these fields. However, whenever these discussions have progressed to the point where OPC is in a position to make a request for action on the part of the Department of Defense, I believe that it must be reduced to writing and be made the subject of appropriate coordination within OPC in order to insure completed staff work on our part.

P. D. V.
